Directions:

1. Draw a circle with your compass
2. Mark the center, where the pin was, A
3. Measure from the circle to the center
4. Put the pin on the circle and make the arc B-C
5. Label B and C
6. Measure B-C and then make the arc at the top with the pin on B, then on C. * carefully so you don't change your measurement*
